Kamal Public Sr Sec School <i>Commerce With Informatics Practice</i>	2013–2023 <i>Delhi</i>

PROJECTS

Vastraani – AI Virtual Wardrobe | *HTML, CSS, JavaScript, Tailwind CSS, AI*

- Developed an AI-powered virtual wardrobe platform that enables users to upload photos and visualize outfits on themselves
- Implemented virtual try-on functionality to enhance online fashion discovery and decision-making
- Designed a responsive and intuitive user interface for seamless cross-device user experience
- Improved user engagement by providing personalized outfit visualization and styling assistance
- Live: <https://deft-otter-4623ce.netlify.app/>

Simon Game | *HTML, CSS, JavaScript (DOM)*

- Built an interactive memory game using vanilla JavaScript and DOM manipulation
- Added smooth animations and real-time feedback to boost engagement
- Ensured full mobile responsiveness and consistent cross-device behavior
- Live: <https://tourmaline-empanada-da824a.netlify.app/>
